# Building Clean Air Environments

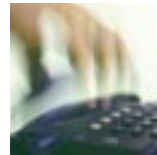

## Leaders in Air Climate

Fläkt Woods is the world's leading player in the air climate industry. By bringing together two market leaders, Fläkt and Woods, the Group has operations in over 30 countries and a worldwide distribution network.

Fläkt Woods offer a wide range of air management solutions for building ventilation, and environmental control. Our product range is globally recognised for high quality and best value and includes air handling units, air terminal devices, chilled beams, air heaters, ducts, fans and fan coils.

## Creative Air Quality Solutions

In today's indoor environments people are demanding improved air quality. Our innovative air movement products make building environments safer and healthier for people at work, at home or at leisure. Fläkt Woods has a portfolio of market leading brands in this area; brands that are well known for value, quality, reliability, safety, innovation and customer service.

## Indoor Air Innovation

Fläkt Woods have the most technically advanced products for buildings applications. Our world renowned product range includes VEKA, Sting, EC plus EU air handling units which incorporate the highly efficient ECONET heat recovery system.

Veloduct ducts transport air to rooms where it is distributed quietly and draft free, by Fläkt Woods' large selection of air terminal devices. Our Flexicool chilled beams can be used to improve room comfort. The innovative Elea filtration system is a complete solution for cleaner indoor air environments. Added to this is our market leading range of high performance fans which are designed to work in all types of indoor environments.
